Save money with your library card!

What better way to deal with an economic crisis than by cutting up your credit card and pulling out your library card. If you're making ends meet by canceling cable, internet or Netflix, we're here to fill the gap with our large selection of DVDs, our public access computers, and of course hundreds of thousands of books and magazines.

Libraries always see increased use during economic downturns. During the past four months, circulation at the Dartmouth Libraries is up 12.5% over the same time period last year.
